

How can we help older Queenslanders to stay connected to the community to continue to live a fulfilling life?

Queenslanders will **live longer**

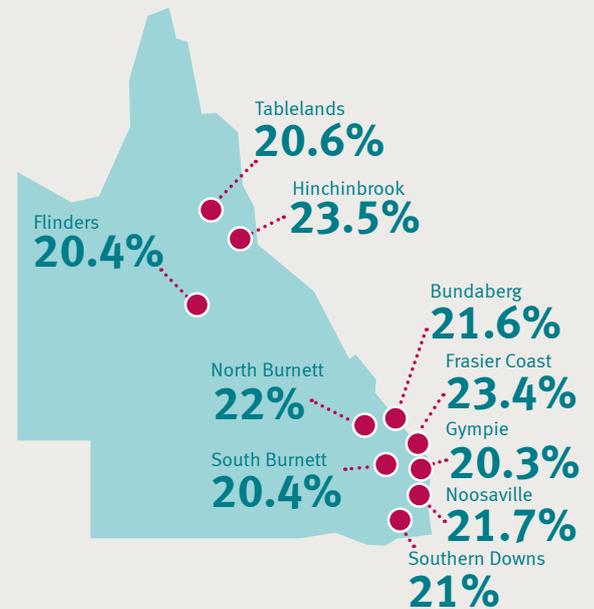

Social networks
city vs. regional/remote areas

Internationally **loneliness** is recognised as an **emerging public health issue**

Local government areas with the **highest proportion** of people aged **65 years** and older

What is your solution?

We suggest you consider using the Queensland Government open datasets on data.qld.gov.au.

A list of useful open datasets and resources is on the following page.

Guidance to help you prepare your GovHack project video to pitch your solution (3 minutes):

- 1 Introduction:** state the project title, team name and members.
- 2 Problem:** what is the challenge your hack addressed? Why does it matter to find a solution?
- 3 Vision:** in one sentence, describe the ideal end state / long-term goal you are trying to achieve through your solution.
- 4 Data/resources:** what was your approach to solve the problem? How did you investigate the problem? Provide an overview of the open data and information used and how it helped you to develop your solution.
- 5 Minimum viable product:** describe your solution (proof of concept). What makes the solution unique? What would be the impact of the solution?
- 6 Next steps:** outline a road map on how the solution could be developed and implemented to achieve your vision.

For more tips see the [GovHack handbook](#)

Locating open data

Queensland Government open data is accessible at data.qld.gov.au. Search for other government open data at data.gov.au and local government websites.
